

At this moment the portal expands and, consequently, to enhance the need for new resources, in particular, require new server computers and broadband Internet. The last question is already solved, but here's the question of the servers yet relevant. Portal also requires the informants about releases of game servers, if possible, able to create an update for Non-Steam clients games. Just want to create their own assemblies customers gaming portal. Requires administrators of game servers and forum moderators, who besides their designated service servers are ready to follow their assigned sections of the forum and creating editing the appropriate descriptions. Just for the post of moderator needs people fluent in English translation compilation of descriptions and dialogue with English-speaking audience of the forum. A more detailed description of the above can be found in the relevant sections of the site and forum.
