22.12.2009 00:00 - Обновлено 13.10.2011 05:57

Сервер Day of Defeat Source обновлён до версии 1.0.0.33 (16 сентября 2011)

Added a server command line option called "-dumplongticks" which will generate minidumps when there are long server frames

Fixed startmovie failing for the raw, tga, jpg, and wav options

Fixed some HUD messages not displaying properly on widescreen resolutions

Updated the localization files for all games
